

World General Medicine Congress: Your Official Digital Platform

The World General Medicine Congress (WGMC) digital platform is the single authoritative hub for the WGMC 2026 experience. Built for clinicians, researchers, sponsors, and delegates, the platform centralizes everything from program schedules and speaker profiles to abstract submission workflows and sponsor engagement tools. Designed around simplicity and security, it supports registration, personalized agendas, live updates, and an integrated networking suite — all accessible via desktop and mobile.

Core Mission

Deliver a streamlined, secure, and inclusive digital experience that enhances conference participation and accelerates scientific exchange.

Audience

Clinicians, primary care physicians, medical researchers, medical students, industry partners, and policy makers from around the world.

Platform Highlights

Registration, submissions, scheduling, live notifications, session streaming, networking, and analytics — unified under one secure account.

Visual consistency is anchored in a calming medical palette — primary emphasis on #5A6ED8 with deeper accents of #243799 and midnight tones (#000024, #000030). This palette supports readability and lends a professional, trustworthy appearance across the platform interfaces and marketing touchpoints.

World General Medicine Congress

The attendee module is crafted to make participation effortless. Users can register with tiered pricing, claim early-bird discounts, and choose between in-person and hybrid attendance. Once registered, attendees create personalized agendas by bookmarking sessions, receiving automated reminders, and syncing selected talks to calendar apps.

Seamless Registration

- Tiered pricing (student, clinician, presenter, industry)
- Secure payment gateway and invoice generation
- Group registration and institutional billing

Real-time Management

- Live schedule updates and push notifications
- Venue maps, room assignments, and accessibility filters
- On-demand session recordings and slide downloads

Speakers & Keynotes

Browse curated speaker profiles with abstracts, bios, and CV highlights. Add favorites and request one-to-one meetings during networking hours.

Networking

Intelligent matchmaking surfaces relevant collaborators based on specialty, interests, and past publications. Schedule meetups or join topic-based lounges.

Logistics & Safety

Up-to-date travel advisories, venue safety protocols, and local resources to help attendees plan their visit to Bangkok, March 23–24, 2026.

The platform emphasizes clarity and low friction: large CTAs, accessible forms, and progressive disclosure of details so attendees can move from discovery to action in seconds.

Empowering Researchers & Sponsors

Researchers, presenters, and sponsors are central to WGMC's impact. The platform provides a robust abstract submission system, a peer-review dashboard, and sponsor tools that maximize visibility and return on investment. From initial submission to final presentation, workflows are transparent, auditable, and optimized for high-quality scientific exchange.

1. Submission

Step-by-step guided abstracts with templates, conflict-of-interest disclosures, and optional multimedia uploads.

2. Review

Double-blind peer review with automated assignment, reviewer scoring, and editorial oversight for fairness and rigor.

3. Presentation

Accepted abstracts map to poster sessions, oral presentations, or rapid-fire symposia with formatting guidance and rehearsal scheduling.

Sponsor and exhibitor modules include customizable booth pages, lead capture, content scheduling, and analytics dashboards to measure engagement. Sponsors can run sponsored sessions, host industry symposia, and access anonymized attendee insights to tailor follow-ups.

Submission deadlines, reviewer guidelines, and sponsorship tiers are published on the platform and updated in real-time. Early planning increases visibility and scientific impact.

Join the Future of Medical Collaboration

WGMC 2026 is a moment to connect — over 300 attendees and 90+ expert speakers will converge to share insights, debate best practices, and forge collaborations. The platform makes it easy to manage your full conference lifecycle: register, submit, schedule meetings, attend sessions, and access post-conference archives.

What You Can Do

- Register now with clear fee options and invoice support
- Submit abstracts and track review status in real time
- Create a tailored agenda and sync it to your calendar
- Engage with sponsors, explore exhibitor materials, and collect CE credits

Conference dates: March 23–24, 2026 — Bangkok, Thailand.
Whether you attend in person or virtually, every session includes robust learning materials and on-demand recordings for later review.
